Dear General Williams:

Thank you for your letter of 10 March asking for my views on
the propriety and feasibility of granting TK/SI access [redacted]

I read your letter with interest and I have thought through the
issue fully -- particularly what would be required to actually grant
such access and where such a precedent would lead in the future. As a
result, I cannot support such an idea. The concept seems useful on the
surface, but the risks are unacceptable. I would urge that you disapprove
the request. [redacted]
